Dear Sir,

**Application for Approval of 17.93 Bar (260.0 psi)
Welded Steel Cylinders for Refrigerant R513a, HFO-1234ze
36 pcs. 108 Litres (Serial No.: 118203C - 118391C)**

I refer to my interim reply of 26 January 2021 on the captioned subject.

Your submitted documents have been scrutinized. The captioned cylinders manufactured by Worthington Cylinders are found designed, manufactured and tested in accordance with the DOT-4BW260 Specifications and the Sherwood RVE6660L and RVE6660V valve with inlet thread specification of 3/4" - 14NGT is suitable for the cylinder.

Approval under Regulation 64 of the Dangerous Goods (General) Regulations, Chapter 295B, Laws of Hong Kong is hereby given to the captioned cylinders to be put into use in Hong Kong. Please also be advised that the relevant sections and regulations under the Dangerous Goods Ordinance, Chapter 295, Laws of Hong Kong and its subsidiary legislations relating to the control and use of gas cylinder shall be adhered to.

Please also be advised that:

- i) Once the cylinder is used for a specific refrigerant, it should not be used to contain another type of refrigerant. Otherwise, the chemical professional should be consulted to confirm that no harmful effects will be generated.
- ii) The safety precautions and measures as mentioned in Safety Data Sheet must be taken.
- iii) The designed maximum filling ratio of the cylinder for a specific refrigerant shall not be exceeded. The requirements as stipulated in Dangerous Goods (General) Regulations, Chapter 295B, should also be complied with.

One set of duly endorsed supporting document is returned herewith. The other set is retained by this Department for record purpose.

Yours faithfully,

(LAI Wai-hei)
for Director of Fire Services
