

COIL DEFENDER

Condensate Pan Tablet

Condensate Pan Tablet is a slow release annual treatment made from silver ion and enzyme that will stop the build-up of mould, slime and bacteria in the condensate tray.

FEATURES

- Non-toxic and safe to use in food environments
- Non-corrosion
- pH neutral
- Available in two tablet sizes
- Highly effective silver ion formulation giving broad antimicrobial protection

BENEFITS

- 12 months protection to stop slime, mould and odour causing bacteria growing and blocking condensate line
- No specialised equipment needed
- Reduces potential blockages and water damage
- Combined with Coil Treatment to give total protection of the system and improves indoor air quality
- Reduces maintenance and cleaning procedures

COIL DEFENDER Related Products

Enzyme Coil Cleaner is a safe environmentally friendly concentrated cleaner specially formulated for HVAC and Refrigeration Coils. The formulation digests oil, dirt and biological contamination and can be safely washed down the drain

Coil Protect is a product applied to cooling and heating coils to stop mould and bacteria growing on the coils. It is applied to clean, dry coils and leaves a thin surface coating which stops microbial growth. The coating is applied every 12 months.

Filter Protect is a product applied to filters to extend the life and improve the efficiency of the filter. The filter treatment is applied to clean or new filters and will stop the growth of bacteria and mould from prematurely blocking the filter and reducing efficiency.

DIRECTIONS FOR USE

- Thoroughly clean the coil and pan of all dirt and antimicrobial contamination
- Using clip system, secure the tablet and allow it to have constant contact with the condensate runoff
- If using multiple tablets secure at opposite sides of tray
- After twelve months replace the cage tablet even if there is residual material in the cage
